

MARKET REPORT
PRIME & STORE CATTLE SALE
THURSDAY 3rd OCTOBER 2019

Emerald agents offered a smaller yarding of 1,145 head of mostly local cattle at this weeks combined sale. Quality & presentation was of a reasonably high standard throughout most categories. On the back of the threat of rain, competition from the usual field of buyers was strengthened by an increased support from within the restocking, backgrounding and feedlot sectors. Hence prices improved across the board for all classes of store cattle, with the exception of a limited supply of store cows that appear to represent good buying to feed or background.

Genuine bullocks were too few to quote, buyers showed a keen interest in the better finished cows with

averages improving across the heavy and mediam categories, whilst those lacking cover lost ground. A small sample of heavy heifers sold fully firm for what was offered, heavy bulls still lack the sting of a couple of weeks ago. A better selection of feeder steers meet strong competition to sell very consistently to a/v 279c, feeder heifers were also in demand the best selling to peak above 250c.

Weaner steers broke the 300c barrier to a/v 16c better than last sale and weaner heifers were the big winners selling well above recent results the a/v increased by 35c to top at 230c. There were no cows and calves presented.

SALE HIGHLIGHTS:

Rob & Julie Crozier "Rydan" Rubyvale, sold brahman cows for 213c weighing 536kg or \$1143
